Opti-MIZER **MAX**
Fuel Treatment & Stabilizer

FREE ETHANOL WARRANTY

Use Opti-Mizer MAX continuously in your new 4-cycle engine and Interlube will reimburse the repair cost of any engine/carburetor damage caused by Ethanol Fuel (E10) for up to 6 years.

TO QUALIFY:

- Purchase a 6-pack of pouches, or one 16oz. bottle, of Opti-Mizer MAX along with your new 4-cycle equipment. Opti-Mizer MAX must be purchased at the same time and location as the new equipment.
- Use Opti-Mizer MAX continuously throughout engine operation. All fuel run through engine must be mixed with Opti-Mizer MAX.
- Always store equipment with Opti-Mizer MAX mixed fuel in tank.
- Save all Opti-Mizer MAX receipts for proof and timing of purchases. This includes the original purchase receipt for both the equipment and Opti-Mizer MAX.

TO FILE A CLAIM:

- Return to original dealer to have engine diagnosed and repaired.
- The cause of damage must be confirmed (by the dealer) on the repair bill as having resulted from ethanol fuel use.
- Equipment owner sends the repair bill and all Opti-Mizer MAX proof of purchase receipts to Interlube for repair reimbursement. Must be original receipts...no photocopies.
- Interlube will verify the claim and send a check back to the equipment owner within 45 days of submission.

REPAIR REIMBURSEMENT:

- Flat rate = \$60 plus accumulated value of all Opti-Mizer MAX purchases up to the full cost of repair (taxes excluded). Example: customer purchases a bottle of Opti-Mizer MAX with their new equipment and another one sometime later. Their reimbursement for repair would be up to \$60 plus 2x \$17.95 = \$95.90.

EXCLUSIONS:

- Only available on power equipment engines up to 31hp and coverage ends once the equipment age exceeds 6 years.
- Warranty coverage not available on motorcycle, marine or automotive engines.
- Standard seasonal service is not a warrantable repair. Examples: tune-ups, carburetor flush, spark plug & filter replacement, etc. These routine maintenance activities should be performed as recommended by the engine/equipment manufacturer.
- Damage caused by negligence of the equipment owner or operator. I.e.: leaving equipment exposed to rain or snow, abuse and/or misuse of equipment, flood damage, etc.
- All engine problems during the original manufacturer's warranty period must first be considered for coverage under the engine or equipment manufacturer's warranty. Only damage not covered by the original warranty should be considered for coverage under the Opti-Mizer MAX Ethanol Warranty.

IMPORTANT:

- Running rough is not a warrantable condition. Often an engine will run a little rough after being stored. This condition will improve on its own once fresh fuel with Opti-Mizer MAX has a chance to flow through. An engine must be *inoperable* before considering ethanol warranty coverage. "Inoperable" is defined as, will not start or will not keep running.
