

Opti-2[®]

TWO-CYCLE OIL

APPLICATIONS

- * For use in all air and water cooled two-cycle engines regardless of brand, model, or mix ratio.
- * String trimmers, blowers, chain saws, hedge trimmers, pole saws, water pumps, RC units, motorized scooters and skateboards, snow throwers, snowmobiles, outboards, personal watercraft and motorcycles

FEATURES & BENEFITS

- * **SIMPLE** - single mix for all air & water cooled two-cycle engines
- * Exceeds all OEM specifications (ISO-L-EGD++)
- * Smoke-free operation
- * Contains fuel stabilizer
- * Improved engine performance
- * Longer engine life
- * Compatible with oxygenated fuels
- * Less oil = less exhaust
- * Anti-wear properties
- * Anti-corrosion protection
- * Greater horsepower

TECHNOLOGY

- * Specialized two-cycle lubricant exceeds O.E.M. performance standards and highest global oil standards
- * Reduces oil consumption and exhaust emissions
- * Improves performance
- * Reduces break-in period

GENERAL INFORMATION

- * One mix for all two-cycle equipment
- * Environmentally friendly (less exhaust)
- * Gasohol compatible

SIZES

- #20096 1-gallon mix pouch
- #20612 Pro-Tube 6-pk (1-gallon mix pouches)
- #20056 2.5-gallon mix pouch
- #21212 10-gallon mix bottle
- #20112 25-gallon mix bottle
- #20044 110-gallon mix jug
- #20015 530-gallon mix pail
- #20055 5500-gallon mix drum

**EXCEEDING THE
HIGHEST
PERFORMANCE
STANDARDS FOR
OVER 40 YEARS**

GLOBAL STANDARDS FOR 2 CYCLE LUBRICANTS

THE DEMANDS ON TWO CYCLE ENGINES HAVE INCREASED DRAMATICALLY RESULTING IN A PYRAMID OF LUBRICANT PERFORMANCE LEVELS.
