

# Opti-MIZER MAX

Ethanol Fuel Treatment & Stabilizer

**Eliminates most ethanol problems** by lubricating, cleaning and clearing fuel systems of **water**, resins, gums and carbon deposits.

## **Opti-Mizer MAX provides maximum protection**

- \* **Keeps fuel fresh** through suspension and dispersal of water, resins, gums and deposits.
- \* **Raises the phase separation threshold** allowing fuel to tolerate more water before separation.
- \* **Lessens ethanol fuel damage** with 10 times the standard anti-corrosion capabilities.
- \* **Detergent additives** help keep the entire fuel system clean

## **APPLICATIONS**

- \* Protects engines before, during, and after operation
- \* For storage or continuous use in all 4-cycle & 2-cycle engines
- \* Helps prevent phase separation
- \* For use in fuel cans or tanks
- \* Use any time fuel is used or stored

## **PERFORMANCE & BENEFITS**

- \* Fuel stabilization up to 24 months
- \* Maximum corrosion protection
- \* Engine & carburetor detergency
- \* Easy starting
- \* Lubricates top cylinder & valves
- \* Keeps fuel fresh
- \* Prevents resin & gum formation

## **TECHNOLOGY**

- \* Significantly raises phase separation threshold
- \* Maintains fuel quality through suspension and dispersal
- \* Contains Valve Guard upper cylinder lubrication

**Exclusive technology combination, not available from any other product.**
